

DÒMINO NUMÈRIC

Instruccions del joc

Poden jugar al dòmino de 2 a 4 jugadors i jugadores.

Repartim set targetes a cada participant. Deixem la resta de targetes, si n'hi ha, de cap per avall escampades damunt la taula.

Comença el joc qui té la targeta "6 / sis peixos" posant-la visible al mig de la taula. Si cap jugador i jugadora té aquesta targeta, iniciarà el joc qui tingui la targeta "5 / cinc peixos". Si ningú disposa d'aquesta targeta, iniciarà el joc qui tingui la targeta "4 / quatre peixos". I així successivament.

El següent jugador o jugadora continua el joc, tirant una targeta que tingui una de les seves parts que es correspongui en nombre o quantitat a l'indicat en qualsevol de les parts de la targeta anterior. La nova targeta es col·loca connectant les dues parts relacionades de les targetes.

De manera successiva i ordenada, els jugadors i les jugadores col·loquen les seves targetes connectant-les per les parts que mantenen una relació de nombre i/o quantitat (per exemple: "nombre 1" amb "nombre 1", "nombre 2" amb "dos peixos", "quatre peixos" amb "quatre peixos", etc.).

Quan un jugador o jugadora no té cap targeta que es correspongui amb una de les dues parts lliures de les targetes extremes de la filera, agafarà una targeta de les sobrants que hem deixat cap per avall, mentre n'hi hagi. Si la targeta que ha escollit tampoc li serveix, continuarà el joc el jugador o jugadora següent.

El joc finalitza quan un participant es queda sense cartes o quan cap participant té opció de treure cap altra targeta.

D'altra banda, podem realitzar altres activitats amb les targetes de dòmino. Per exemple, podem jugar a col·locar-les en ordre, posant en una mateixa columna les targetes que comencen pel mateix nombre, ordenant les columnes seguint la sèrie numèrica i alhora distribuint les targetes de cada columna en files segons la quantitat de peixos que contenen (d'un peix a sis).
